

PLANT & ANIMAL GENOME XXV

The Largest Ag-Genomics Meeting in the World.

January 14-18, 2017
San Diego, CA

www.intlpag.org

INTERNATIONAL PLANT & ANIMAL GENOME CONFERENCE

PAG XXV Bulletin

Registration for PAG XXV is Officially Open

By **registering today**, you'll not only lock in our best rate, but you'll secure your spot in the scientific sessions, plenary lectures, and networking events - all designed to provide you with critical insight and information on the most innovative approaches and developments in the global ag-genomics world today.

At PAG XXV, you'll have the opportunity to interact one-on-one with top scientists and researchers, and discover new technologies and methodologies. At the end of the show, you will walk away with a fresh perspective and new strategies.

REGISTER TODAY 

A Forum on Recent Developments

Stay tuned for a full program announcement this fall, which will include a schedule of over 150 scientific workshops, 20 industry workshops, 7 plenary lectures, over 1,000 posters, and an expo with 110+ leading genomics and bioinformatics exhibitors, as well as various opportunities for networking and discussion.

Above: 2016 Plenary Speaker Erich Jarvis (Duke University Medical Center), presenting a talk on "Molecular Mechanisms Underlying Neural Circuits for Vocal Learning"
